

Curriculum Vitae

<u>Name:</u>	Oleg Engelovich Kosterin
<u>Present Title:</u>	D. Sci. (D. Hab., Doctor of Biological Sciences)
<u>Present Positions:</u>	<p>Leading Researcher, Acting Head of the Laboratory of Genetics and Evolution of Legume Plants at the Institute of Cytology and Genetics of the Siberian Branch of the Russian Academy of Sciences,</p> <p>Professor Chair of Cytology and Genetics. Faculty of Natural Sciences. Novosibirsk State University</p>
<u>Main Address:</u>	Oleg E. Kosterin, Institute of Cytology and Genetics SB RAS, Acad. Lavrentyev ave., 10, Novosibirsk, 630090, Russia mobile phone: +7 913 922 0865 phone: (7) 383 3634936 fax: (7) 383 3631278 E-Mail: kosterin@bionet.nsc.ru
<u>ORCID:</u>	0000-0001-5955-4057
<u>WoS Researcher ID:</u>	AAC-6480-2019
<u>Scopus ID:</u>	6603142281
<u>Date and place of birth:</u>	June 16, 1963, Omsk, USSR
<u>Marital status:</u>	married
<u>Children:</u>	a son, Valentin Olegovich Kosterin, born in 2010
<u>Home address:</u>	Ilyicha str. 21, 302, Novosibirsk, 630090, Russia
<u>Education:</u>	Children Art School No 1 of the Omsk city, 1978.

Novosibirsk Physics and Mathematics school for advanced children No 165 (the 10th form course), 1980.

Novoibirsk State University (Novosibirsk, Russia), 1985, specialisation: biology; qualification: ecology.

Diploma work:

"Analysis of variation of Ambrosia Beetle (*Zygogramma suturalis* L.) upon its introduction into Stavropol'skiy Kray".

Ph. D. Thesis (dissertation for a degree of candidate of biological sciences):

"Inheritance and properties of a histone H1 fraction specific to young tissues of the garden pea (*Pisum sativum* L.)"
defended 31st May 1995.

D. Sci Thesis (habilitation; dissertation for a degree of doctor of biological sciences):

"Evolution and genogeography of wild representatives of the genus *Pisum* L."
defended 26th October 2017.

Research and Professional Experience:

At the Institute of Cytology and Genetics SB RAS:

1985-87 Research student
 at Laboratory of Evolutionary Genetics,
 Institute of Cytology and Genetics, Novosibirsk, Russia.
 The scope of research: Computer modelling of macroevolutionary processes.

1987-92 Staff junior researcher
 at the Group of Molecular Bases of Evolution and Selection,
 later - Laboratory of Experimental Modelling of Evolutionary Processes (Dr. V.A. Berdnikov, head),
 Institute of Cytology and Genetics, Novosibirsk, Russia.
 The scope of research: study of polymorphism and developmental dynamics and inheritance
 of molecular variants of histone H1 and someseed proteins in the legume plants,
 genetic mapping of the corresponding genes and morphological markers in the garden pea,
 polyacrilamid gel electrophoresis of proteins and their fragments,
 immunoblotting

1992-98 Staff researcher at the same Laboratory.

The scope of research: the same as above and the effect of allelic substitution

in histone H1 genes on the plant phenotype, the control of recombination rate in plants,

the rate of spontaneous hametophyte mutation, the genetic control of the complex leaf morphology

1998-2008 Staff senior researcher at the same Laboratory.

The scope of research: the same as above

2008-2012 Head of the Sector (former laboratory) of Experimental modelling of Evolutionary Processes.

The scope of research: variation of histone H1 genes,

its use in molecular phylogenetic studies in plants and insects, its influence on the phenotype in peas;

phylogeography and taxonomy of wild peas (*Pisum*) and the nature of crossing barriers in this genus;

nucleo-cytoplasmatic incompatibility in pea, extraploidy in pea and its possible use for selection.

2012-present Acting Head of Laboratory of

Genetics and Evolution of Legume Plants

at the Institute of Cytology and Genetics, Novosibirsk, Russia.

The scope of research:

- phylogeography and taxonomy of wild peas (*Pisum*) and the nature of crossing barriers in this genus;

- nucleo-cytoplasmatic incompatibility in peas;

- variation of histone H1 genes, its use in molecular phylogenetic studies in plants and insects,

- phylogeography of some Lepidoptera species of North Asia with disjunct ranges.

At Novosibirsk State University:

2009-2013 Assistant at the Chair of Cytology and Genetics

2013-2022 Docent at the same Chair

2022-present Professor at the same Chair

Professional research interests:

- plant and general genetics;
- phylogeography and taxonomy of wild peas;
- nucleo-cytoplasmatic incompatibility in plants and the nature of crossing barriers in the genus *Pisum*;
- arrangement of histone H1 genes and developmental changes of H1 complement in plants and their possible significance;
- variation of histone H1 genes in plants and insects and its possible use for molecular phylogenetic studies;
- construction of a reliable recombination map of the garden pea;
- genetic control of the rate of meiotic recombination in plants;
- genetic basis for plant morphogenesis;
- rate of spontaneous mutation;
- molecular bases of evolution; theory of macroevolution;
- faunogenesis in the Holarctic in the Pleistocene and Holocene;
- molecular phylogeography of nemoral insect species with disjunct ranges in North Asia
- molecular phylogeny of Odonata
- fauna of Odonata of Eurasia
- taxonomy of Odonata
- fauna and taxonomy of butterflies (Papilionoidea) of North Asia

Tutorial activity:

2006-2011: read the course ‘General Biology’ (17 lectures for the 1st year students) at the Psychological Faculty at Novosibirsk State University.

2009-2018: read the course ‘Genetics’ (23 lectures; the for 3rd year students) at the Faculty of Natural Sciences and Medical Faculty at Novosibirsk State University.

The lectures (in Russian) are available at:

<https://www.elibrary.ru/item.asp?id=49890198>

2020-present: reading the course ‘Domestication’ (5 lectures) for magister students at the Faculty of Natural Sciences at Novosibirsk State University.

Participation in scientific programs:

1993 – Present: Participation in projects supported by All-Russian "Fund of Fundamental Research"

1994: A State Grant for Young Scientists

2000 – Present: a number of small grants by International Dragonfly Fund for research of the Odonata fauna of Siberia and Cambodia.

2004-2007: Participation in the scientific programme “Origin and Evolution of Biosphere” by the Russian Academy of Sciences

2007-2010: Participation in integration projects “Nature of Academy Town: Results of a Half-century Exploitation” (2007-2008) and “Dynamics of Ecosystems of Academy Town: Monitoring and Working out Recommendation on Rational Use” (2009-2010) by Presidium of the Siberian Branch of the Russian Academy of Sciences

2012-2014: Participation in a partnership integration project by the Siberian and Far Eastern Branches of the Russian Academy of Sciences "Phylogeography of Insects, Birds and Mammals of Siberia and the Far East: the history of formation of the faunas and modern evolutionary trends,"

2013 – 2016: Head of a project “Genetic analysis of the role of genes responsible for nuclear-cytoplasmic incompatibility in formation of reproductive isolation in the genus *Pisum* L.” supported by All-Russian "Fund of Fundamental Research"

2019 –2020: Head of a project “Role of hybridisation and associated conflict of nucleus and cytoplasm in formation of genetic patterns of evolution of the organellar genomes in the genus *Pisum* L. (peas)” supported by All-Russian "Fund of Fundamental Research"

Extra-professional research interests:

- faunistics, taxonomy and ecology of Odonata and butterflies of Eurasia;
- flora and vegetation of Siberia and Central Asia.

Extra-professional research activities:

- Faunistical and taxonomical studies of Odonata and Lepidoptera of Eurasia
- Participation in botanical (flora) and entomological (fauna and ecology) expeditions, permanent collecting insects for the Institute of Animal Systematics and Ecology of the Russian Academy of Sciences.
- reviewing of papers and theses on genetics, odonatology and lepidopterology

Scientific editor of the book: P. Y. Gorbunov. 2001. The butterflies of Russia: classification, genitalia, keys for identification (Lepidoptera: Hesperiidea and Papilioboidea). - Thesis - Ekaterinburg - 320 p.

Activity in scientific societies

1998-2010: a member of the Coordination Committee of *Pisum Genetics* Association

Since 1984: a member of Russian Entomological Society

In 2003-2009: a member of the Editorial Board of the ***International Journal Odonatology***

Since 2001: a member of the Editorial Board of ***Odonatologica***

Since 2009: a member of the Editorial Board of ***Amurian Zoological Journal***

Since 2009: a member of the Editorial Board of ***Oriental Insects***

Since 2023: a member of the Editorial Board of ***Genetic Resources and Crop Evolution***

Foreign languages: English, spoken and written

Made English translation of the original Russian manuscript for the following book, printed in English:

P. Y. Gorbunov. 2001. The butterflies of Russia: classification, genitalia, keys for identification (Lepidoptera: Hesperiidea and Papilioidea). - Thesis - Ekaterinburg - 320 p.

Countries visited:

- Kazakhstan (after split the USSR) in 1993, 1994, 2009, 2010, 2012, – on entomological expeditions;
- South Korea in 2002 - to participate in the 1st symposium of the S.I.O. Regional Office in East Asia;
- Japan in 2002 - by invitation of Mr. Kiyoshi Inoue to make a report at the the Kansai Odonatological Research Group meeting;
- Germany in 2003 (with excursions to Belgium and France) - private;
- Thailand in 2005, 2006 and 2009 - on entomological expeditions;
- Cambodia in 2006, 2010, 2011, 2013, 2014, 2015, 2016, 2017, 2018, 2019 – on entomological expeditions;
- Portugal in 2010 – for 1st European Congress in Odonatology;
- Ethiopia in 2012 – on an entomological expedition;
- United Kingdom in 2014 – for expert consultation on pea crop wild relatives arranged by Global Crop Diversity Trust;
- Indonesia in 2014 – on vacation;

- Iran in 2017 – on an expedition focusing on wild peas and Odonata;
- Israel in 2019 – by invitation by Prof. S. Abbo at Agronomy Faculty of the Hebrew University of Jerusalem to observe wild pea populations.
- Morocco in 2021 – on an expedition focusing on wild peas.

Non-research skills and activities:

- drawing (participated in illustrating ‘The Flora of Siberia’ and other books of this kind)

Website:

<https://pisum.icgbio.ru/kosterin/> (devoted to natural photos, rather outdated)

Taxa described by or in co-authorship with O.E. Kosterin

Genera (3)

Euthygomphus Kosterin, 2016 (Odonata, Gomphidae).

Mattigomphus Karube et Kosterin, 2018 (Odonata, Gomphidae)

Isoaeschna Schneider, Vierstraete, Kosterin, Ikemeyer, Hu, Snegovaya et Dumont, 2023 (Odonata, Aeshnidae)

Species (15)

Euphaea cyanopogon Hämäläinen, Kosterin et Kompier, 2019 (Odonata, Euphaeidae). Cambodia, Vietnam.

Ischnura foylei Kosterin, 2015 (Odonata, Coenagrionidae). Sumatra.

Amphicnemis valentini Kosterin et Kompier, 2018 (Odonata, Coenagrionidae). Cambodia, Vietnam.

Coeliccia rolandorum Kosterin et Kompier, 2017 (Odonata, Platycnemididae). Cambodia, Vietnam.

Onychargia priydak Kosterin, 2015 (Odonata, Platycnemididae). Cambodia.

Prodasineura hoffmanni Kosterin, 2015 (Odonata, Platycnemididae). Cambodia.
Asiagomphus reinhardti Kosterin et Yokoi, 2016 (Odonata, Gomphidae):
Cambodia, Laos.

Euthygomphus schorri Kosterin, 2016 (Odonata, Gomphidae): Cambodia.

Microgomphus alani Kosterin, 2016 (Odonata, Gomphidae): Cambodia.

Burmagomphus asahinai Kosterin, Makbun et Dawwrueng, 2012 (Odonata,
Gomphidae): Cambodia, Thailand.

Burmagomphus apricus Zhang, Kosterin et Cai, 2015 (Odonata, Gomphidae):
China.

Burmagomphus dentatus Zhang, Kosterin et Cai, 2015 (Odonata, Gomphidae):
China.

Burmagomphus magnus Zhang, Kosterin et Cai, 2015 (Odonata, Gomphidae):
China.

Burmagomphus latescens Zhang, Kosterin et Cai, 2015 (Odonata, Gomphidae):
China.

Risiophlebia guentheri Kosterin, 2015 (Odonata, Libellulidae). Cambodia.

Subspecies (19)

Calopteryx splendens njuja Kosterin et Sivtseva, 2009 (Odonata, Calopterygidae).
Russia: SW Yakutia.

Calopteryx virgo feminalis Kosterin, 2017 (Odonata, Calopterygidae). Russia: the
West Caucasus.

Indolestes gracilis expressior Kosterin, 2015 (Odonata, Lestidae). Cambodia.

Ischnura elegans malikovae Onishko et Kosterin (Odonata, Coenagrionidae).
Russia: southern Far East.

Coeliccia poungyi dasha Kosterin, 2014 (Odonata, Platycnemididae). Cambodia.

Burmagomphus williamsoni eddiei Kosterin, 2021 (Odonata, Gomphidae).
Cambodia.

Macrogomphus phalantus jayavarman Kosterin, 2019 (Odonata, Gomphidae).
Cambodia.

Macromidia genialis buusraensis Kosterin, 2018 (Odonata, Synthomisidae).
Cambodia.

Hemicordulia tenera donnelyi Kosterin, Karube et Futahashi, 2015 (Odonata,
Corduliidae). Thailand.

Hemicordulia tenera vikhrevi Kosterin, Karube et Futahashi, 2015 (Odonata,
Corduliidae). Cambodia.

Euchloe ochracea irina Dubatolov et Kosterin, 1994 (Lepidoptera, Pieridae).
Kazakhstan: Dzhungarian Alatau Mts.

Pontia callidice boreoasiatica P. Gorbunov et Kosterin, 2007 (Lepidoptera,
Pieridae). North-eastern Russia

Cupido minimus pilyachuch P. Gorbunov et Kosterin, 2007 (Lepidoptera,
Lycaenidae). Russia: Kamchatka

Polyommatus icadius cicero Ivonin et Kosterin, 2000 (Lepidoptera, Lycaenidae).
Russia: Altai.

Plebejus argyrogномон peninsularis P. Gorbunov et Kosterin, 2007 (Lepidoptera, Lycaenidae). Russia: Kamchatka.

Boloria pales roddi Kosterin, 2000 (Lepidoptera, Nymphalidae). Russia: Altai.
Present combination: *Boloria aquilonaris roddi* Kosterin, 2000

Boloria napaea contaminata P. Gorbunov et Kosterin, 2007 (Lepidoptera, Nymphalidae). Russia: N. Ural

Boloria aquilonaris jakubovi P. Gorbunov et Kosterin, 2007 (Lepidoptera, Nymphalidae). Russia: Kamchatka

Erebia disa kutkhynjaku P. Gorbunov et Kosterin, 2007 (Lepidoptera, Nymphalidae). Russia: Kamchatka

Presently synonyms (1)

Hyponephele narica ambialtaica Kosterin, 2002 (Lepidoptera, Nymphalidae).
Russia: S Tuva, Kazakhstan: Black Irtysh. Present status: junior synonym of *Hyponephele narica narica*.

Replacement names proposed (1)

Lathyrus schaeferi Kosterin, 2017 (Basionymum: *Pisum abyssinicum* A. Br.)
(Fabaceae)

Taxa named after O.E. Kosterin

Species (10)

Drepanosticta kosterini Dow, 2017 (Odonata, Platystictidae). Malaysia: Borneo (Sarawak).

Asiagomphus kosterini Kompier, 2018 (Odonata, Gomphidae). Vietnam.

Alucita kosterini Ustjuzhanin, 1999 (Lepidoptera, Alucitidae). Tadzhikistan:
Zeravshan Mt. Range.

Stenoptilia kosterini Ustjuchanin, 2001 (Lepidoptera, Pterophoridae). Russia:
Kamchatka.

Cernyia kosterini Dubatolov et Buczek, 2013 (Lepidoptera, Lithosiini). SW Cambodia.

Lyclene kosterini Dubatolov et Buczek, 2013 (Lepidoptera, Lithosiini). SW Cambodia.

Dolichopus kosterini Grichanov, 2017 (Diptera, Dolichopodidae). Russia:
Khakasia.

Coenosia kosterini Vikhrev, 2009 (Diptera, Muscidae). Russia: Omsk.

Thricops kosterini Vikhrev, 2013 (Diptera, Muscidae). Kazakhstan: Altai.

Cordilura kosterini Ozerov et Krivosheina, 2014 (Diptera, Scatophagidae). Russia:
Primorye.

Subspecies (2)

Parnassius stubbendorfii kosterini Kreuzberg et Pljushch, 1992 (Lepidoptera, Papilionidae). Russia: Magadan Province.
Erebia kosterini P. Gorbunov, Korshunov et Dubatolov in Korshunov et Gorbunov, 1995 (Lepidoptera, Nymphalidae). Russia: Magadan Province.
Present status: *Erebia ajanensis kosterini* P. Gorbunov, Korshunov et Dubatolov in Korshunov et Gorbunov, 1995.

known species of the fauna of Siberia]. - Nauka (Siberian Division) - Novosibirsk. pp. 57-63. (in Russian, English summary)

Zaika, V.V., O. E. Kosterin. 1987. [Community structure and ethological aspects of dragonflies of Lake Manzherok (Altai)]. [Ecology and Geography of Arthropods of Siberia]. - Nauka (Siberian Division) – Novosibirsk. pp. 73-74 (in Russian)

Totally publications in both science fields: 5 monographs, 163 papers in international journals, 90 papers in national and regional journals, 4 'collective monographs', 42 papers in collected article editions, 4 textbooks, 1 preprint, 6 conference proceedings, 27 conference abstracts, 1 deposited paper, 3 errata - in total 333 publications.

Of them, in ISI Web of Science Core Collection journals: 86 papers, citations (WoS core collection): 777, Hirsh index: 16 (5.12.2024); in Scopus: documents: 91, citations: 890, Hirsh Index: 18 (5.05.2024).

Of them in genetics:

70 papers in international journals, 17 papers in national journals, 4 papers in collected article editions, 4 textbooks, 16 conference abstracts, 1 preprint – 112 publications.

Of them in natural history:

5 monographs, 94 papers in international journals, 64 papers in national and regional journals, 4 'collective monographs', 38 papers in collected article editions, 6 conference proceedings, 10 conference abstracts, 1 deposited paper, 3 errata – 226 publications.
